1 of 1 review helpful Good not as indepth as I had hoped By Montana Mom This book is good I am using it for my homeschool science curriculum along with several others in the series They are well written and the pictures are gorgeous My only criticism is that I wish they went a little deeper into some of the topics than they do However I would still recommend it 0 of 0 review helpful This new series is the ultimate illustrated science guide for non ndash scientists With over 200 full color images illustrations charts and other visual aids Science 101 explains major areas of

science in an interesting visually compelling and accessible manner These books will fill the need for an authoritative popular reference in science and technology for students and adults alike In SCIENCE 101 OCEAN SCIENCE readers will learn about all aspects About the Author Since introducing Miracle Coaching in 2004 Jennifer Hoffman has taught the principles of miraculous living to thousands of clients A life long intuitive and clairvoyant Jennifer provides intuitive guidance spiritual healing and life and busi
