By Martin Solan, Rebecca J. Aspden, David M. Paterson : Marine Biodiversity and Ecosystem Functioning: Frameworks, methodologies, and integration a large number and wide variety of lake ecosystem models have been developed and published during the past four decades we identify two challenges for making further vii world conference on ecological restoration v congreso iberoamericano y del caribe de restauracin ecolgica i conferncia brasileira de restaurao ecolgica Marine Biodiversity and Ecosystem Functioning: Frameworks, methodologies, and integration:

The biological composition and richness of most of the Earth's major ecosystems are being dramatically and irreversibly transformed by anthropogenic activity. Yet despite the vast areal extent of our oceans, the mainstay of research to date in the biodiversity ecosystem functioning arena has been weighted towards ecological observations and experimentation in terrestrial plant and soil systems. This book provides a framework for examining the mechanistic processes trans timely and provides an interesting overview on the relationships between marine BEF as well as discussions of major accomplishments to date and issues remaining to be resolved. This book is a very good primer for students and researchers who wish to exam
