By Brian Wansink : Marketing Nutrition: Soy, Functional Foods, Biotechnology, and Obesity (The Food Series)

the whole foods deception grocery chain uses fraudulent marketing to sell health conscious consumers contaminated food 8142016 millions of americans seeking phytoestrogens are plant derived compounds found in a wide variety of foods most notably soy a litany of health benefits including a lowered risk of osteoporosis Marketing Nutrition: Soy, Functional Foods, Biotechnology, and Obesity (The Food Series):

6 of 6 review helpful Marketing Nutrition for Health Professionals By Tara M Diversi I have been a follower of Professor Brian Wansink s brilliant work since studying as a dietitian from 2002 and Brian s book Marketing Nutrition has been like my bible for my nutrition consulting We continue to face problems with the health of society deteriorating and in Marketing Nutrition the science of nutrition is combi Although encouraging people to eat more nutritiously can promote better health most efforts by companies health professionals and even parents are disappointingly ineffective Brian Wansink rsquo s Marketing Nutrition focuses on why people eat the foods they do and what can be done to improve their nutrition Wansink argues that the true challenge in marketing nutrition lies in leveraging new tools of consumer psychology which he specifically demonstrate Marketing Nutrition moves theory and research into practice There are enormous economic dividends for health care providers public health institutions and commercial food companies if we are successful in doing this Dr David Mela Expertise Group
