By S. R. Kerr, L. M. Dickie : The Biomass Spectrum sample chapters renewable energy sources charged with energy from the sun and originated from earth moon interaction vol i energy from biomass about conference biomass trade and bioenergy africa 28 29 sep 2017 at johannesburg The Biomass Spectrum:

Kerr and Dickie propose the development of a new ecological theory one that can lead to a more effective remedy for the drastic effects of heavy fishing on natural communities of organisms in both marine and freshwater environments By plotting the densities of the biomass of all organisms in a given community by body size classes the authors provide empirical evidence of what they term the biomass body size spectrum in the world s oceans After examining this Kerr and Dickie are certainly aspiring towards a broader more holistic ecological formulation at least in aquatic ecology For this reason alone I strongly recommend the book W Gary Sprules Ecology Kerr and Dickie are certainly aspi
