By Lesley Sharp : Bodies, Commodities, and Biotechnologies: Death, Mourning, and Scientific Desire in the Realm of Human Organ Transfer (Leonard Hastings Schoff Lectures) Bodies, Commodities, and Biotechnologies: Death, Mourning, and Scientific Desire in the Realm of Human Organ Transfer (Leonard Hastings Schoff Lectures):

In the United States today the human body defines a lucrative site of reusable parts ranging from whole organs to minuscule and even microscopic tissues Although the medical practices that enable the transfer of parts from one body to another most certainly relieve suffering and extend lives they have also irrevocably altered perceptions of the cultural values assigned to the body Organ transfer is rich terrain to investigate especially in the American con
