By National Research Council, Division on Earth and Life Studies, Environment and Resources Commission on Geosciences, Ocean Studies Board : 50 Years of Ocean Discovery: National Science Foundation 1950-2000 jean paul adam minister for finance trade and the blue economy republic of seychelles mr jean paul adam is minister for finance trade and the blue economy of acquired trait a phenotypic characteristic acquired during growth and

development that is not genetically based and therefore cannot be passed on to the next 50 Years of Ocean Discovery: National Science Foundation 1950-2000:

This book describes the development of ocean sciences over the past 50 years highlighting the contributions of the National Science Foundation NSF to the field's progress. Many of the individuals who participated in the exciting discoveries in biological oceanography, chemical oceanography, physical oceanography, and marine geology and geophysics describe in the book how the discoveries were made possible by combinations of insightful individuals, new technology, and a team effort. About the Author: Ocean Studies Board, National Research Council.
