By Dr Catriona L. Hurd, Paul J. Harrison, Kai Bischof, Christopher S. Lobban : Seaweed Ecology and Physiology amazon seaweed ecology and physiology 9780521145954 dr catriona l hurd paul j harrison kai bischof christopher s lobban books a rewritten and reorganized edition of the physiological ecology of seaweeds 1985 this book contains a new introductory chapter reviewing seaweed morphology Seaweed Ecology and Physiology:

0 of 3 review helpful Five Stars By Rigoberto A must have In coastal seas from the tropics to the poles seaweeds supply the energy required to support diverse coastal marine life and provide habitat for invertebrates and fish Retaining the highly successful approach and structure of the first edition this is a synthesis of the role of seaweeds in

underpinning the functioning of coastal ecosystems worldwide It has been fully updated to cover the major developments of the past twenty years including current research on the The first edition has always been my desk side reading for my courses on Biology of Algae and Ecophysiology and Biochemistry of Seaweeds and a reference book for my undergraduate and graduate students With the incorporation of the latest knowledge on seawee
