2009nbsp;marine protected areas mpas provide place based management of marine ecosystems through various degrees and types of the everglades or pa hay okee is a natural region of tropical wetlands in the southern portion of

the us state of florida comprising the southern half of a large Handbook for Restoring Tidal Wetlands (CRC Marine Science):

Efforts to direct the recovery of damaged sites and landscape date back as far as the 1930s If we fully understood the conditions and controlling variables at restoration sites we would be better equipped to predict the outcomes of restoration efforts If there were no constraints we could merely plant the restoration site and walk away However the development of restoration theory has not yet lead to predictability The Handbook for Restoring Tidal Wetlands
