From Brand: CRC Press : Estuarine Indicators (CRC Marine Science) the use of sediment cores to reconstruct historical trends in contamination of estuarine and coastal sediments undertake a simple search to obtain data and information on a specified coastal region or search for estuaries within political boundaries or bio regions and/or on

Estuarine Indicators (CRC Marine Science):

Acknowledging the present inability to determine objectively the status and trends among estuarine ecosystems the environmental research community has recently stepped up efforts to develop and evaluate meaningful estuarine indicators This goal requires the effort of researchers from a broad spectrum of disciplines In order to expedite this initiative many of the world s leading estuarine scientists came together to present their views at the 2003 Estuarine Indicator
