By Diane Scullion Littler, Mark M. Littler, Katina E. Bucher, James N. Norris : Marine Plants of the Caribbean. A Field Guide from Florida to Brazil the plants image gallery for the united states department of agriculture plants database the cane toad *Rhinella marina* also known as the giant neotropical toad or marine toad is a large terrestrial true toad which is native to south and mainland Marine Plants of the Caribbean. A Field Guide from Florida to Brazil:

1 of 1 review helpful Marine Plants of the Caribbean By Dive instructor This book was recommended to me to ID the foods that nudibranchs live on or eat or both It is from 1989 and there is an inscription dated 1991 but since it was the cheapest my friend found for me I bought it I was surprised to spend that much for such an old used paperback book but I think it is out of print or at least not readily available so marine plants of the caribbean a field guide from florida to brazil
