Munro : Fighting for the Future of Food: Activists versus Agribusiness in the Struggle over Biotechnology (Social Movements, Protest and Contention) the 3638323 to 1605548 a 1450464 of 1443430 and 1443154 in 1270287 for 640884 on 508384 that 503295 is 492114 said 487809 was 434749 with 423779 at 408185 Fighting for the Future of Food: Activists versus Agribusiness in the Struggle over Biotechnology (Social Movements, Protest and Contention):

0 of 0 review helpful Fighting for the Future of Food By BrendaMarie A good read an eye opener for those of us who grew up enculturized to corporations as part of life Not my fav on the subject but I know that some retired college professors make it a must read So read and weep at the slow process we as a majority of Americans are taking to wake up to an issue that isn't going to rectify itself Who will win this When scientists working in the agricultural biotechnology industry first altered the genetic material of one organism by introducing genes from an entirely different organism the reaction was generally enthusiastic To many these genetically modified organisms GMOs promised to solve the challenges faced by farmers and to relieve world hunger Yet within a decade this gene revolution had abruptly stalled Widespread protests against the potential dangers of F Rachel Schurman and William A Munro take a fresh and carefully balanced look at the social movement spawned by this technology Anyone who wants to understand why groups across the globe oppose genetically modified foods will find this book revelatory
