**By Joanna Burger, Michael Gochfeld : Habitat, Population Dynamics, and Metal Levels in Colonial Waterbirds: A Food Chain Approach (CRC Marine Science)** Habitat, Population Dynamics, and Metal Levels in Colonial Waterbirds: A Food Chain Approach (CRC Marine Science):

This book is a result of the authors rsquo more than 40 years of study on the behavior populations and heavy metals in the colonial waterbirds nesting in Barnegat Bay and the nearby estuaries and bays in the Northeastern United States From Boston Harbor to the Chesapeake based on longitudinal studies of colonial waterbirds it provides a clear picture of the toxic trends and effects of heavy metals in the aquatic environment The authors take a food web ecosyste Reading Habitat Population Dynamics and Metal Levels in Colonial Waterbirds A Food Chain Approach will make you an expert of sorts on Barnegat Bay and the Northeast estuaries That might seem an ambitious goal for the authors as well as the reader
