| Monsanto vs the World The Monsanto Protection ACT Gmos and Our Genetically Modified Future | File size: 77.Mb

By Jason Louv : Monsanto vs. the World: The Monsanto Protection Act, GMOs and Our Genetically Modified Future monsanto has done a particularly good job of working its way into the nooks and crannies of government they are right up there with ge and monsanto already dominates americas food chain with its genetically modified seeds now it has targeted milk production just as frightening as the corporations Monsanto vs. the World: The Monsanto Protection Act, GMOs and Our Genetically Modified Future:

40 of 40 review helpful Short succinct and informative By Brady Kelso Mr Louv gives his readers the lowdown on

corporate monsters like Monsanto and the big business of genetically modified seeds As always his writing is clear focused and balanced He is the Upton Sinclair of 2013 and I look forward to more of his reportage into these hard hitting areas of social concern 11 of 11 review helpful Monsanto — one of the largest agriculture and biotech companies in the world — creates genetically engineered seeds and food or GMOs They've also brought us toxic chemicals like DDT PCBs and even Agent Orange But what is Monsanto truly doing to our diet — and why do many consider their business practices deeply abusive Are GMOs the solution to world hunger or a shockingly dangerous threat to our health And does Monsanto really care some About the Author Jason Louv is an independent journalist that has written for Esquire VICE Humanity Plus and many more
